It's + distancia: la unidad de medida

Para decir a qué distancia está un lugar, usamos It's: It's two miles to the lake. Aunque la distancia tenga varias millas, seguimos diciendo It's. Con one, la unidad va en singular; con dos o más, en plural. Normalmente añadimos s: mile, miles; kilometer, kilometers; yard, yards; block, blocks. Foot cambia a feet. La primera frase de cada ejercicio indica qué unidad usar. No cambies una unidad por otra.

Ejemplo resuelto
