Always con el presente continuo

Always + continuo: repasar la escritura de -ing

Always significa siempre. Con el continuo destaca una repetición, a menudo molesta, pero también puede expresar agradecimiento o admiración. No tiene que estar pasando ahora. Am/is/are y always ya están escritos. Usa el verbo principal de la primera frase y escribe solo su forma con -ing. Normalmente añadimos -ing: play → playing. Una -e final muda desaparece: make → making. En palabras como run, put y swim duplicamos la consonante: running, putting, swimming. También forget → forgetting y drip → dripping. No duplicamos en open → opening. En inglés americano: cancel → canceling. Recuerda también: write → writing, plan → planning, knit → knitting y spot → spotting.

Ejemplo resuelto
