Would: acciones repetidas del pasado

Recuerdos de acciones repetidas

Would puede presentar un hábito dentro de un recuerdo del pasado. La frase sitúa ese recuerdo y dice cuándo se repetía la acción: When we were children, we would play every afternoon. Would no cambia con la persona, y el verbo que viene después ya está en su forma básica. Aquí solo falta would. No estamos contando un deseo ni una situación imaginada; contamos lo que ocurría habitualmente antes.
