Used to, be used to y get used to

Estar acostumbrado en el pasado: was y were

Be used to también puede contar cómo eran las cosas antes. Was used to significa estaba acostumbrado; were used to significa estabas o estábamos acostumbrados, según la persona. I, he, she, it y una persona llevan was. You, we, they y varias personas llevan were. You siempre lleva were. El pasado lo marca was o were; used to conserva su forma. Después puede ir un nombre o un verbo en ing. Todas estas frases hablan del pasado.
