Present perfect: ever y never

Ever y never en frases negativas

Podemos decir I have never tried it o I haven't ever tried it: las dos expresan que no lo he probado nunca. Never va con have o has sin not. Ever puede ir con haven't o hasn't. No usamos haven't never en estas negativas del inglés estándar. Elige entre ever y never: fíjate en si el auxiliar ya incluye not. Los contextos de las frases con never confirman que todavía no ha ocurrido la experiencia.
