Present perfect continuous

Negativas: haven't o hasn't

Para decir que una actividad no se ha estado realizando, usamos haven't been + verbo en -ing o hasn't been + verbo en -ing. Haven't significa have not; hasn't significa has not. I, you, we, they y los plurales llevan haven't. He, she, it y los singulares llevan hasn't. You siempre lleva haven't. El contexto explica por qué la actividad no se realiza; been y el verbo ya están escritos.
