Relatos sin cambio de tiempo verbal

Repaso: conserva el tiempo adecuado

Says = dice; said = dijo; that = que; I = yo. Mia y Ana: she = ella; Leo y Tom: he = él. Con says conserva el tiempo del mensaje: am pasa a is y have a has con he o she, pero siguen en presente. Tras said, conserva had + participio y los modales could, would, should y might. Los datos generales siguen en presente. En los datos personales con said sabemos que siguen siendo ciertos: aquí mantén el presente y ajusta la persona. La ayuda española explica el mensaje completo.
